

Annual Membership Registration and Additional Donation

Minocqua / Kawagasuega Lakes Protection Association (**MKLPA**) is an all-volunteer group of concerned and involved citizens working to protect the lakes and their surroundings by enhancing the water quality, fishery, and aesthetic value of our lakes as public recreational facilities for today and future generations.

We need your help!

- **Eurasian water-milfoil has invaded and flourished in our lakes.** We are working aggressively through use of grants, membership dues, and additional donations to stop and reverse the spread of this invasive weed.
- **A diminished walleye population has necessitated a moratorium on walleye catch-and-keep.** In concert with scientists and other concerned citizens, we are examining challenges to our fishery toward developing a reliable and sustainable solution.
- **Water-quality analyses indicate our lakes are not as pristine as they once were.** We are examining options to control the influx of phosphorous, a surplus of which can result in algae blooms and diminished oxygen levels. Reducing concentrations of phosphorus will eventually result in improved water clarity and habitat.

We cannot meet our goals without your involvement and financial support of our lake community!

We are committed to keeping all personal information safe and private.

Name _____ *(exactly as it will appear in acknowledgements)*

Primary Mailing Address _____

Lake Address *(if different)* _____

Contact Number (_____) _____ - _____ (Type) _____
